PROFESSIONAL SUMMARY

UI/UX Designer focused on creating intuitive, user-centered digital experiences. Skilled in Figma, wireframing, prototyping, user research, visual design, and design systems. With a Bachelor's background in Commerce, Accounting, and Business Management, I bring a strong understanding of business needs and user requirements to create practical, engaging, and effective digital solutions.

SKILLS

UX Design: User Research, User persona, User Flows, **Wireframing**, **Prototyping**, Usability Testing

Tools: Figma, Adobe photoshop, Adobe illustrator

Design & Other skills : Visual Design, Design Thinking, **Graphic Design**, Video Editing, Accounting
Business management

PROJECTS

AttendX -Track better, Learn better

- Designed a digital platform that connects parents and teachers to monitor student attendance in real time. The project addresses the communication gap between schools and parents by providing timely attendance updates and alerts when students are absent.
- Designed user flows, wireframes, and high-fidelity interfaces for parents and teachers.

Redesign Firstcry app

- Redesigned the FirstCry app to create a simpler, cleaner, and more kid friendly experience. Focused on reducing visual clutter, improving navigation, and organizing content to make the interface easier and more engaging for younger users

QuickArt - Art supplies, Fast Delivery

- QuickArt is a quick-delivery app for artists and art students to get art and stationery supplies when they run out during their work. It helps users find nearby materials, order them easily, and receive them within 15–20 minutes, reducing interruptions and keeping their creative work going.
